Introduction

This guide will give you an overview of how to configure your Peoples Pension deductions in the payroll. Creating the output file is covered in a separate guide, see the Pension Guide for more information.

The guide covers:

Peoples Pension permit employers to calculate the pension deduction based on a percentage of Qualifying Earnings, Pensionable Earnings or Total Earnings. The tax basis of the pension deduction can be via Salary Sacrifice (also known as Salary Exchange), Gross or Net. For more information about People's Pension terminology click [here](#).

For instructions on how to setup the employee and employer pension deduction, select your pension scheme option from the list:
