Covid self-isolation is ending: what does it mean for HR?

With the restrictions coming to an end almost a month ahead of the original March deadline, we've covered the implications on HR and how IRIS software can support. The employee experience is evolving – [our HR solutions offer](#) high levels of customisation to match this. If your company has a particular process, workflow or question form for employees to urgently complete, it can all be easily created within the software, giving your HR policies the flexibility to adapt to an ever-changing culture and fast-track decisions. What's more, for a limited time, you can receive up to **50% off IRIS software** – [click here to find out more](#).

Take part in the HMRC MTD Pilot

Do you have VAT registered clients with a turnover below £85k?

From April 2022 approximately 1.1m VAT registered businesses with taxable turnover below this VAT threshold will be required to operate Making Tax Digital (MTD) for their VAT reporting and record keeping obligations. They'll be required to file their VAT reports through MTD compatible software, as HMRC's free online system for filing will be discontinued. IRIS KashFlow is MTD compatible and will provide the perfect solution for any of your impacted clients.

IRIS is pleased to be part of the HMRC Pilot for Making Tax Digital for Income Tax Self-Assessment starting this April. We are looking for accountancy practices to get involved. We will work with you to ensure you have suitable clients to trial the system, helping you at every stage. This is a great opportunity to get ahead and prepare for this huge change to the tax system, with HMRC aiming to make it more efficient and effective as well as making it easier for taxpayers to get their tax right. If you would like to participate in the pilot for IRIS Personal Tax, Taxfiler or KashFlow send your contact details to MTD@iris.co.uk

What does the
accountancy firm of
2025 look like?

Look forward

Time to look to the future: What does the accountancy firm of 2025 look like?

There's been a huge amount of change happening in the accounting industry for years now – and advancing technology is either responsible for, or is powering, that shifting scene. While many accountant practices are starting to embrace a digital way of working, many are not, relying instead on processes that are manual, time consuming and error-prone. And it's unlikely these practices will survive, let alone thrive, for much longer. In this eBook, we take a look forward to the near future, to 2025, at how digital technology will continue to revolutionise the accounting profession – and how you can future proof your business to ride the digital wave, stay competitive and, most importantly, keep your clients happy.
